CAHABA LAND OFFICE RECORDS

Dedicated

to

Christy

This book dealing with the records of the Cahaba Land Office is the first of a series of books on the land offices in Alabama. Already being prepared are similar books on St. Stephens and Sparta Land Offices with other works in the planning.

Before the establishment of the land office in Cahaba, property in this section, known as the Alabama Territory, was placed up for auction in Milledgeville, Georgia, with the first sale being made August 4, 1817. All land office records were later transferred to the Cahaba Land Office which opened October 20, 1818 in Conecuh County. This land office remained in operation until June 15, 1856 when it was moved to Greenville, the county seat of Butler County, Alabama.

All of the books used in this compilation are located in the Department of Archives and History in Montgomery, Alabama. There are many ledgers pertaining to the Cahaba Land Office which are not included in this book, and researchers are urged to refer to those ledgers for additional information.

In the front of this book are two series of maps that will be helpful to you. The first series, obtain from the Department of Archives and History, depicts the development of the land offices in Alabama. Following this is a second series of maps showing the development of counties in Alabama. The maps for 1820, 1830, 1840, 1850 and 1870 were provided by the Archives. The remaining maps are the author's interpretation of information found in Volumes 1 and 11 of "History of Alabama and Dictionary of Alabama Biography" by Thomas McAdory Owen, with guidance from maps found in "The Formative Period in Alabama 1815-1828" by Thomas Perkins Abernathy. Also provided is a listing of the dates of creation of the counties in Alabama with the source of the territory from which the county was formed. By studying the location of Townships and Ranges on the Land Office maps, you can determine the county of settlement and then trace the development of that area into its final boundary. It was possible for a family to have lived in three or four counties without ever having moved. Having a better understanding of how the counties were developed will be of great value to researchers in obtaining information on the early settlers.

The eight ledgers compiled in this book have been divided into eight chapters. Many of the purchasers were listed numerous times in each ledger. Realizing the duplicate entries did not add to our knowledge of the purchaser, most of them were omitted. In fact, literally thousands of them were deleted, leaving for the most part only those entries which gave additional information. By studying the entries in each ledger it is possible to learn the city or state from which some of the people migrated and then locate the land in which they settled.

THE ESTABLISHMENT OF THE LAND OFFICE

It was with surprise that two ledgers on Military Warrants were located in the Cahaba Land Office records. These were unknown to your author, and to most people with whom they were discussed. In working on these records in Chapters Seven and Eight, it was noted that many of the veterans or their beneficiaries to whom the land was granted did not settle in Alabama, but chose to sell the property instead. Undoubtedly, these Warrants were issued on the most part for services rendered in the Indian Wars. However, at least one Warrant was designated as being granted for service in the late war with Great Britain. This would more than likely be for the War of 1812 rather than for the Revolutionary War.

One word of warning about the spelling of names included in this book. Without a doubt there are many variations to be found in some of the names. The recorders in the Land Offices spelled names with something less than accuracy, and didn't seem to place much importance on having the exact spelling of a purchaser's name. Also in transcribing the ledgers, there were numerous times when it was almost impossible to read the entries; sometimes because of elaborate writing, and sometimes because of the faded ink. Some of the recorders wrote "J" and "I" just alike, and only when they were used in a name could you determine the correct usage. For these reasons, and because of the tediousness of the job of transcribing, which, no doubt, caused errors on my part, I would strongly advise researchers to look for names by the way they sound, and not by the way they are spelled.

Thinking that readers of this book would find it of interest to know some of the background to the establishment of the land office in Cahaba, I have included some excerpts from Territorial Papers of the United States, Vol. 18, Alabama Territory 1817-1819, which deal with this subject.

A letter from Alexander Pope to Josiah Meigs

Malory's Store 8th July 1817

Dear Sir, I received by the last mail your favor of the 13th Ultimo accompanying forms and Instructions for my Government as Register in the Land Office in the Alabama District, and shall leave this neighborhood in a day or two for Augusta with a view to furnish the Office with the Requisite Book, printed Blanks and Stationary in time for the approaching sale at Milledgeville. Those instructions only relate to the keeping accounts of Land sold etc but say nothing of the mode in which the lands are to be sold. I trust I shall be fully instructed on this head in time for the sales.

All my friends from this quarter being absent viewing the Lands that are for sale I shall defer sending the Bond and oath of Office until I get to Augusta.

A letter from Josiah Meigs to Alexander Pope

G L O 22nd July 1817

Alex Pope Esq, Augusta or Milledgeville Geo

Sir I reply to your letter of 8th inst that the public lands which are to be offered for public sale at Milledgeville, must be offered in the order in which they stand in the proclamation, in quarter sections, beginning with section No. 1 of township 11 in Range 13, offering all the sections in that township, in numerical order, (in qt. sections) & then proceeding in like manner with the following townships. Note, section No. 16 in each township for schools is not to be offered, nor any section located by Indians, agreeably to Law-- Any tracts for which 2 dollars shall not be bidden, you will pass over, & they will be open for private sale, at that price, after the public Sales are closed. The Map of the district not having been received, I do not know whether there will be any fractional sections in it, if there should, you will be pleased to class them with adjacent quarter sections (previous to the public sales), when such classification is necessary; private sales, after the public sales are closed, must be made conformably to your classification.

The Land Laws are now in the press, so soon as they are published you shall have a copy, in the mean time I must refer you to the laws of the United States for further information.

I am &c.

Milledgeville Geo 31 Oct 1818

Dear Sir, The Sales of Public Lands have closed here this day after offering the whole of the 30 Townships out of which a great many tracts have been bidden off at from two to fifty dollars--The amount of the sales is not yet ascertained but I presume will exceed One Million of Dollars--

Believing that it was lawful for me to purchase at public sale I have bidden off several tracts But I am still at a loss how I shall act with regard to the payments and the mode by which I am to come at the titles to them. I desire that you will instruct me on this head--

These sales and those coming on in Jan^y next will occasion a deal of labor in our Offices and will make it necessary that we employ several additional Clerks to keep pace with them--A Competent Clerk cannot be had for less than 1000\$ per Annum-----

A letter from Alexander Pope to Josiah Meigs

Milledgeville Geo 22 Nov 1818

Dear Sir, I have but this moment finished my return of monies recd & Land Entered in October and tomorrow's mail will be charged with their conveyance--having had the making out of this return myself and being on the eve of starting for the Cahaba at same time it has been an arduous task--should any errors therefore present themselves I hope they may be excused as I have been much hurried and a great part been done by night--A few hours will put me on my journey out--Col Taylor left here four days ago for his residence in So Carolina for his black family and will follow me very soon--

We have been very much put to it to procure Clerks here and indeed were not able to get those who were competent--and I fear when we get to the Cahaba we shall not be able to procure any at all--The young man who has been in Col. Taylor's Office having lately married leaves him here he will therefore be deprived of a very able one and the only one indeed I know of in this quarter--He has proposed to me to meet us at the Cahaba at the Jan^y sales provided we allow him Eight Dollars a day instead of four--As his expenses will be considerably increased he will be entitled to extra pay But I do not feel warranted in acceding to his propositions without your consent--He will be at or near the "pleasant level" post Office in the Alabama Territory where he will expect to hear from you on this subject as I promised him to mention it to you--If you think proper you will please write him Directed Wm D Stone care of Henry D Stone the Post Master there--

Yours very respectfully

in order that his receipt should bear date with the purchase of the Lands at Milledgeville the Receiver has granted receipts here in Jan. dated Milledgeville, Octo & Nov---I had no alternative then but to make one return so as to embrace those three months.
